Dear Sir

The how gold field
 shaped up & are having some analysis made
 & should our reports be as favorable as we
 hope we want to make arrangements to go
 to work soon. He would like to have
 some information as to what gold ore
 is worth as it comes from the mine
 say the ore is 10 20 30 40 or 60 per cent pure
 gold & what is the best per cent that it pays to
 work admitting that it can be mined for cheap
 Please give us the terms you receive ore at
 the mint as its taken from the mines

All the information you can give us
 will be duly appreciated by your friends

Dear Sir

We have a gold field shaped up & are having some analysis made & should our reports be as favorable as we hope we want to make arrangements to go to work soon. We would like to have some information as to what gold ore is worth as it comes from the mine say the ore is 10 20 30 40 or 60 prct pure gold & what is the least percent that it pays to work admitting that it can be minded for cheap. Please give us the terms you receive ore at the Mint as its took from the mines. All the information you can give us will be duly appreciated by your friends,
